Plant Type	Shrubs
Plant Family	Hydrangeaceae
Genus	Hydrangea

Large, serrated, dark green leaves is adorned with red petioles and red veins. It turns reddish purple in the fall, extending the season of interest of this hydrangea. Exceptionally cold, hardy, with good heat tolerance and great disease resistance, especially to powdery mildew, 'Bloomstruck' is perfect as a specimen or in small groupings anywhere in the landscape that gets morning or filtered sun.

of large, serrated, dark green leaves is adorned with red petioles and red veins. It turns reddish purple in the fall, extending the season of interest of this hydrangea. Exceptionally cold, hardy, with good heat tolerance and great disease resistance, especially to powdery mildew, 'Bloomstruck' is perfect as a specimen or in small groupings anywhere in the landscape that gets morning or filtered sun.

This deciduous shrub has a round habit, typically growing 3-4 ft. tall (90-120 cm) and 4-5 ft. wide (120-150 cm).

A **part shade** lover, it is best grown in **rich, medium moisture, well-drained soils**. Full sun is tolerated if constant moisture is provided.

No serious pest or disease issues. Watch for **botrytis blight, bacterial wilt, leaf spot, rust, mildew**.

Perfect from **foundation plantings** to **container plantings**. **Massed** in a sheltered location or as an **accent plant**. Effective as a **hedge** and makes **excellent cut flowers** too!

Remove spent flowers to promote new blooms.

To change the color of your Hydrangea, add aluminum sulfate to the soil to make the flowers bluer or add lime to the soil to make them pinker. Treatment should occur ahead of time (late fall or early spring)

This beautiful deciduous shrub should be pruned after flowering by cutting back the stems to a pair of healthy buds. Prune out weak or winter-damaged stems in early spring.

Hydrangea macrophylla species is native to Japan. It is reported from seaside habitats as well as mountains in Japan, from Honshu southwards. This species has naturalized in China, New Zealand, and the Americas.

May cause mild stomach upset if ingested, and contact with foliage may aggravate skin allergies. Wear gloves and other protective equipment when handling.

Toxic to dogs, toxic to cats, toxic to horses.
